

Horizon™

LED Task Light

New LED Technology is on the Horizon

Humanscale's Horizon LED task light, a visually striking fusion of form and function, is the first utilization of Thin Film Technology™ in a task light. Using a series of high-intensity LEDs surrounding several layers of polycarbonate and optical films, Thin Film Technology produces an ultra-wide footprint of warm, glare-free 3000K light—excellent for ergonomic illumination and beautiful light in any environment.

In addition, Horizon's built-in dimmer control provides both energy savings and adjustable levels of illumination.

Features

- Striking, organic aesthetic complements any interior
- First utilization of innovative Thin Film Technology in a task light
- Even plane of illumination casts just one shadow
- Produces ultra-wide footprint of glare-free 3000K (warm white) light
- Spherical joints in the base and light assembly facilitate easy, intuitive positioning
- Seven levels of adjustable illumination increase the light's energy efficiency and ergonomic function
- Nightlight feature operates at just one watt
- Soft start and adjustment is easy on the eyes
- Robust, high-quality design ensures years of maintenance-free use

Specifications

- Power consumption: 11 watts
- Dims to 10% of maximum
- Lifespan: Up to 60,000 hours
- May contribute to valuable LEED-CI, -NC and -EB credits
- Made predominantly of recycled aluminum
- 95% recyclable content
- 10-year, 24/7 warranty

element DISC™

“The industry called for a future-forward light; we saw an opportunity to marry high-performance LED lighting with ultimate simplicity.”

Kelly Ann Rockwell Design Engineer

scanmagnetics.com

From its chic, futuristic looks to its next-generation technology, Element Disc is ahead of its time and ahead of its class. Utilising innovative Thin Film LED Technology™, Disc offers seven levels of dimmability with just an effortless “pinch” of the light head. And taking advanced LED technology to a new level of sustainability, Disc features an occupancy sensor that turns the unit on or off when the user enters or leaves the area. When not in use, Disc folds into a compact nesting position, with the form of the lamp head gracefully echoing that of the base.

Features

- Revolutionary Thin Film LED Technology produces an ultra-wide footprint of glare-free light
- PIR occupancy sensor automatically turns the unit off when not in use, and back on when the user returns
- Dimmer switch provides seven adjustable illumination levels for energy efficiency and ergonomic function
- Unique design maximises light output and increases the light's usable life
- Smart dimming memory saves the last selected lighting level, even after the light has been shut off
- Even plane of illumination casts just one shadow
- Perfect internal counterbalance provides effortless, one-touch positioning
- Slender, futuristic form folds into a compact nesting position
- Replaceable head assembly allows for in-field repairs
- Universal power supply and interchangeable plug options accommodate global power outlets
- Sustainable design can contribute to the achievement of valuable LEED credits

Creating a more comfortable place to work

Specifications

- Lumen output: 330 lumens
- Power consumption: 7 watts
- Color Temperature: 3000K
- Color Rendering Index: 80
- Lifespan: Up to 50,000 hours
- ETL/cETL certified and CE pending
- RoHS/WEEE compliant
- Maximum reach: 710 mm (28")
- Working height: 455 mm (18")
- Finish options: White, Silver
- 56% post-consumer recycled content
- 5 Year, 24/7 Warranty

Photometric Performance: Values Based on 610 mm (24") Mounting Height

LED lighting facts
A Program of the U.S. DOE

Light Output (Lumens) **330**

Watts **7**

Lumens per Watt (Efficacy) **47**

Color Accuracy **80**
Color Rendering Index (CRI)

Light Color **3000 (Bright White)**
Correlated Color Temperature (CCT)

2700K 3000K 4500K 6500K

All results are according to IESNA LM-79-2008: Approved Method for the Electrical and Photometric Testing of Solid-State Lighting. The U.S. Department of Energy (DOE) verifies product test data and results.

element VISION[™]
LED Task Light

Element Vision

Introducing the warmest, most beautiful light output ever seen from an LED task light. Utilizing cutting-edge advancements in MCX LED Technology, Element Vision produces a broad footprint of true-color, glare-free illumination—perfect for exceptional ergonomic lighting in any environment.

Beyond using just 7 watts of power, Vision's energy-saving features include an intuitive dimmer control for adjustable light intensity and a Passive Infrared (PIR) occupancy sensor that turns the unit off when the user leaves the area.

Features

- Single MCX LED casts just one shadow
- Produces a large footprint of ergonomic light
- Unique design maximizes light output, reduces glare, and increases the light's usable life
- Replaceable LED assembly allows for easy in-field repairs
- Dimmer switch provides adjustable illumination levels
- PIR occupancy sensor automatically turns the unit off when not in use, and back on when the user returns
- 19 mounting options suit virtually any work environment
- Universal power supply and interchangeable plug options accommodate global power outlets
- Perfect internal counterbalance provides effortless, one-touch positioning

Specifications

- Power consumption: 7 watts
- Color Temperature: 3000K
- Color Rendering Index: 85
- Lifespan: Up to 60,000 hours
- UL/cUL/CE certified
- RoHS/WEEE compliant
- Maximum reach: 28"
- Working height: 18"
- Finish options: Silver, White with Silver accents
- 80% recycled and 99% recyclable content
- May contribute to valuable LEED-CI, -NC and -EB credits
- 10-year, 24/7 warranty

element 790[™]
LED Task Light

Element 790

Element 790 is a higher-performance version of the most award-winning LED task light in the world, the original Element Classic LED task light.

With improved MCX LED Technology™, Element 790 delivers more light output than its predecessor. Using only seven watts of power, it produces light output equivalent to 90 watts of incandescent lighting—hence its name, Element 790. Additionally, an intuitive dimmer gives the user control over lighting levels for even greater energy savings.

Element 790

Features

- Single light source casts just one shadow
- Produces a large footprint of 3500K (neutral white) light
- Produces light output equivalent to 90 watts of incandescent lighting
- Unique, heat-shedding design maximizes light output and increases the light's usable life
- Replaceable LED assembly allows for easy in-field repairs
- Intuitive dimmer switch controls 7 levels of adjustable illumination for extra energy savings and control
- 19 mounting options suit virtually any work environment
- Universal power supply and interchangeable plug options accommodate global power outlets
- Perfect internal counterbalance provides effortless, one-touch positioning

Specifications

- Power consumption: 7 watts, utilizes only 0.5 watts in lowest setting
- Color Temperature: 3500K
- Life: 60,000 hours (L₇₀)
- UL/cUL/CE certified
- RoHS/WEEE compliant
- Maximum reach: 28"
- Working height: 18"
- 360° swivel from base
- 135° front-to-back head tilt
- 90° side-to-side head rotation
- Finish options: Silver, Black, White with Silver accents
- Up to 81% recycled and 99% recyclable content
- May contribute to valuable LEED-CI, -NC and -EB credits
- 10-year, 24/7 warranty
